Any funding awarded through the McCausland Center is contingent on the following terms and conditions:

1. The funding will expire on the date specified in the official award letter.

2. Availability of funds in the yearly internal grants budget of the McCausland Center.

3. All projects must provide a copy of an approved and relevant IRB.

4. This grant can only be used for scanning at the McCausland Center for Brain Imaging, billed at the hourly rates noted on our web page: http://www.mccauslandcenter.sc.edu/scheduling_costs.html

5. All imaging sessions must use the proper billing code assigned to the researcher for the current study (see attached details), and may be booked online at: http://www.mccauslandcenter.sc.edu/calendar/index.php

6. At any one time, a researcher may only have ten hours of scanner time reserved for all current studies – this could either be as a single session or multiple sessions. This provision is designed to allow multiple investigators to book the magnet. Exceptions to this can be made with agreement of the center’s managing director and the researchers.

7. All bookings of McCausland Center facilities by funded research projects will have a priority over those using M-Account funds when patient considerations and scientific rationale are judged to be of equal merit.

8. It is the responsibility of the grant recipient to contact the managing director if the scanner malfunctions during time that has been booked. When properly reported, persons will not be billed for time when the scanner is not operational.

9. By accepting a grant, the recipient agrees to abide by all current safety regulations of the McCausland Center for Brain Imaging. Specifically, a licensed operator must conduct all scanning. The safety guidelines are available through our website at: http://www.mccauslandcenter.sc.edu/docs/McCausland_Center_Safety_Manual.pdf
